

HAPPY MOTHER'S DAY

Dear Friends,

Happy Mothers' Day to all our Moms!

Today we remember our moms and all they have done and continue to do for us. Whether they be near us, away from us, or celebrating today in heaven, may God's love and peace be with each of them this day!

Think of how many meals our moms cooked for us, or how many loads of laundry, or how many carpools. Think of all the school projects they helped us complete, or the costumes they made for Halloween, or the presents they wrapped for Christmas. Think of all the tears they shed when we gave them that ugly Valentine we made in the garage, or when we gave them the dandelions we picked on the way back from school. Think of all the times they made us feel better when we were sick, or when they came to tuck us in, or to "prove" to us that there were no monsters living under our beds!

Thank you, Mom, for all you have done to help me be the person I am today. May the blessings of the Lord be with you today, and may you know some peace and quiet on this, your special day.

Father Fred
